

Langley Gymnastics Foundation Communicable Disease Plan

Please note: this document is subject to change following provincial health and safety requirements.

This Club Communicable Disease Plan has been approved by the Langley Gymnastics Foundation Board of Directors on July 1st, 2021.

Langley Gymnastics Foundation Communicable Disease Plan

A communicable disease is an illness caused by an infectious agent or its toxic product that can be transmitted in a workplace from person to person. Examples of communicable diseases that may circulate in a workplace include COVID-19, norovirus, and seasonal influenza.

Communicable disease prevention focuses on basic risk reduction principles to reduce the risk of workplace transmission of COVID-19 and other communicable diseases. The fundamental components of communicable disease prevention include both ongoing measures to maintain at all times and additional measures to be implemented as advised by Public Health.

Langley Gymnastics Foundation is committed to creating a safe working environment for staff and participants that reduces the risk of transmitting communicable diseases. Langley Gymnastics Foundation will complete the following:

- 1. Langley Gymnastics Foundation will support staff who may be sick** with a communicable disease to avoid working while sick (for example, fever and/or chills, recent onset of coughing, diarrhea);
- 2. Langley Gymnastics Foundation will promote hand hygiene** by providing hand hygiene facilities, including handwashing sinks in the bathrooms and staff room, as well as hand sanitizer stations around the facility, with appropriate supplies and reminding employees and participants with signage to wash their hands regularly and to use appropriate hygiene practices;
- 3. Langley Gymnastics Foundation will maintain a clean environment** through routine cleaning processes, including cleaning high-touch surfaces a minimum of twice per day;
- 4. Langley Gymnastics Foundation will work with the Langley Events Centre and Township of Langley to ensure building ventilation** is properly maintained and functioning as designed;
- 5. To a reasonable extent, Langley Gymnastics Foundation will support employees in receiving vaccinations for vaccine-preventable conditions;**
- 6. Langley Gymnastics Foundation is prepared to implement additional prevention measures** as required by a medical health officer or the provincial health officer to deal with communicable diseases in our club, should those be necessary.
